

Summary videoconference 26 april 2023 (Strike 1st may 2023 national et 2nd may 2023 Orly)

Dear Sir/Madam,

Civil servants unions organize a national strike action in France for March 7th and following days.

Representative union among air traffic controllers supports this national call for strike for May 1st. Minimum level of service will be put in place in our ATC centers.

Additionally, a local call for strike has been sent for Orly for Tuesday May 2nd. Minimum level of service will be put in place in this center only if the on-going negotiations are not successful. A message will be sent Friday mid-afternoon to inform you.

Foreseen disruptions and measures have been explained during our conference call.

For May 1st (applicable from 04:00 UTC to 21:59 UTC), airlines must reduce their flight programs (number of movements initially programmed) by :

- 33% for the airports of Orly, Marseille, Lyon, Bordeaux, Nantes and Toulouse (1 movement out of 3) ;
- 25% for the airports of Roissy, Nice and Beauvais (1 movement out of 4).

Territorial continuity flights are not affected by these measures.

For May 2nd (applicable from 04:00 UTC to 21:59 UTC), airlines must reduce their flight programs (number of movements initially programmed) by :

- 33% for the airport of Orly.

This time, metropolitan France territorial continuity flights (thus including Corsica) are affected by these measures.

It is important to note that these scenarios, with low reduction rates, are highly sensitive to the possibility to lift the minimum service the day of the strike and could lead to last minute adjustments.

NOTAM will be published tonight for the day of May 1st and Friday evening for the day of May 2nd.

The proposed revised flights programs must be sent using the form attached to this message (annex n°2) at the following address : dta-programmes-crisis-bf@aviation-civile.gouv.fr :

- before Friday April 28th 09:00 local time (07:00 UTC) for the day of May 1st,
- before Friday April 28th 18:00 local time (16:00 UTC) for the day of May 2nd.

The program must specify the list of maintained flights as well as cancelled flights. Any questions regarding the details of the computation can be sent to this same address.

I remind you that it is your responsibility to cancel the concerned flights and to update the COHOR base accordingly.

Real-time information is available on the CDM portal <https://cdm.dsna.fr/>.

For these two days, videoconferences are planned at 12:00 pm local time (10:00 UTC) and 18:00 local time (16:00 UTC).

The Teams link below will be used for this videoconferences.
