

4-FLIGHT operational tests at PARIS ACC on 6 and 7 December 2023

Dear Sir/Madam,

In the context of the implementation of the new ATC system 4-FLIGHT in Paris ACC, several live trials are planned during next months. These live trials are essential to secure the implementation of the system in 2024.

7 live trials are planned from October to December 2023 in order to train ATCO and ATSEP to operate the new system.

The live trials, planned on October 18th, November 16th and 28th, have taken place without any problem. As the live trial of November 8th and November 24th, **this scheduled on December 6th and 7th has to be cancelled** due to a social movement of electronics engineers in charge of the installation, operation and maintenance of 4-FLIGHT.

The DGAC recognizes the efforts made by airlines for these live trials and deeply regrets this last-minute cancellation.

The DGAC makes its best efforts to resolve the conflict and guarantee the live trials as scheduled, which is not compromised.

As a reminder : 4-FLIGHT is the project of French ACC modernisation and should allow to increase the capacity of the ACC.

Best regards,

Anne-Laure Gaumerais
