

Conf. Call : 14 feb 2024 14h00 (4-FLIGHT live trials in Paris ACC March 2024)

Dear Sir/Madam,

In the context of the implementation of the new ATC system 4-FLIGHT in Paris ACC, live trials are planned in March 2024. These live trials are essential to optimize the secure implementation of the system in 2024.

During these live trials, Paris ACC capacity is reduced. So it is necessary to reduce the flights in Paris ACC in order to limit flights delays.

As explained during our conference call on Wednesday February 14th the airlines shall reduce their flights programs :

- 5% of their number of movements* between March 12th 5h30 UTC to March 13th 12h00 UTC on Paris-Charles de Gaulle, Paris-Orly and Beauvais airports.
- 5% of their number of movements* between March 26th 5h30 UTC to March 27th 12h00 UTC on Paris-Charles de Gaulle, Paris-Orly and Beauvais airports.

Territorial continuity flights are not affected by these measures.

* 1 movement = 1 landing or 1 take-off.

It is possible for airlines to share flight program reductions.

The proposed revised flight programs must be sent, using the form attached to this message, before March 5th at the following address
dta-programmes-crisis-bf@aviation-civile.gouv.fr

The program must specify the list of maintained flights as well as cancelled flights. Any questions regarding the details of the computation can be sent to this same address.

Two NOTAM will be published.

Best regards,

Clément LESAGE
